

Stamford Bridge Primary School

Pupil Premium Strategy Statement

This statement details our school’s use of pupil premium (and recovery premium for the 2022 to 2023 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year’s spending of pupil premium had within our school.

Part A: Pupil premium strategy plan

Statement of intent

Our intention is that every pupil at Stamford Bridge Primary School, irrespective of their background, starting point or challenges achieves the very best outcomes in progress and attainment. Each child will have their well-being supported and their lives enhanced by an enrichment of experiences and opportunities within and beyond the classroom. We intend to remove any potential barriers to attendance, participation, and inclusion in the full life of our school community. There will be a culture of belonging where every individual is nurtured and challenged to be a confident learner who can thrive in a changing world. We recognise that each child is unique and will have different needs, which may well vary throughout their time in school.

High quality teaching and learning is at the heart of this approach, with a focus on the specific needs of our disadvantaged cohort. The attainment and progress of our non-disadvantaged pupils will be sustained and improved alongside their disadvantaged peers. Our continuous professional development will aim to ensure that every teacher and member of support staff will be trained with evidence-based approaches which will make the most impact on the positive outcomes of our learners. Our curriculum will be ambitious, broad, and inclusive to meet the needs of all learners.

A high-quality pastoral system will be the foundation of this culture. Excellent relationships will be fostered between school staff, pupils, and their families. Our intention will be shared with all stakeholders, including governors and owned by all who work with our young people. High aspirations will be the core of this approach, where the success of each child will be celebrated by all.

We have planned to spend our pupil premium funding to give children the support that they need to reach their own personal potential. We believe in maximising the use of the pupil premium grant (PPG) by utilising a long-term strategy aligned to the School Improvement Plan. This enables us to implement a blend of short, medium, and long-term interventions, and align pupil premium use with wider school improvements and improving readiness to learn.

We will consider the challenges faced by vulnerable pupils, such as those who have a social worker and /or additional needs. The activity we have outlined in this statement is also intended to support their needs, regardless of whether they are disadvantaged or not.

Our approach will be responsive to common challenges and individual needs, rooted in robust diagnostic assessment, not assumptions about the impact of disadvantage. The approaches we have adopted complement each other to help pupils excel. To ensure they are effective we will:

- ensure disadvantaged pupils are supported and challenged in the work that they're set.
- act proactively in identifying areas of need and potential ways in which to support.
- adopt a whole school approach in which all staff take responsibility for disadvantaged pupils' outcomes and raise expectations of what they can achieve.

Overcoming barriers to learning is at the heart of our PPG use. We understand that needs and costs will differ depending on the barriers to learning being addressed. As such, we do not automatically allocate personal budgets per pupil in receipt of the PPG. Instead, we identify the barrier to be addressed and the resources and/or interventions required, whether in small groups, large groups, the whole school or as individuals, and allocate a budget accordingly.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Outcomes for our PP children is significantly lower than their counterparts in reading, writing and maths
2	Assessments, observations, and discussions with pupils indicate underdeveloped oral language and vocabulary gaps among many disadvantaged pupils. These are evident from Nursery/Reception through to KS2 and in general, are more prevalent among our disadvantaged pupils than their peers.
3	Lack of cultural capital /fewer enriching life experiences that results in a lack of stimulus for learning and difficulties in making links in learning across the curriculum.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria- 2023/24 <i>What will success look like?</i>	Success criteria – 2026/27 <i>What will success look like?</i>
1. Secure and embed quality first teaching in all classes.	Provision of high quality CPD linked to reading writing and maths.
