**Remote Learning
Information for Parents
January 2021**

Remote education provision: information for parents

This information is intended to provide clarity and transparency to pupils and parents or carers about what to expect from remote education where national or local restrictions require entire cohorts (or bubbles) to remain at home.

The remote curriculum: what is taught to pupils at home?

A pupil's first day or two of being educated remotely might look different from our standard approach, while we take all necessary actions to prepare for a longer period of remote teaching.

What should my child expect from immediate remote education in the first day or two of pupils being sent home?

If the school is informed that it has to close to all but Key Worker pupils, parents will be sent detailed information on how to access home learning for the first day or two after the announcement. This will be sent out to parents via the school's teachers to parents app (EDUCSPOT), class emails and will also be posted onto the school website and Twitter page. Interim lessons may include links to the Oak Academy which is a Government approved website which hosts daily live lessons, run by teachers. In addition pupils will be signposted to resources that are well established for homework such as SUMDOG (Maths and Spelling), TTRockstars (Timetables) and Bug Club (Phonics).

Following the first few days of remote education, will my child be taught broadly the same curriculum as they would if they were in school?

All lessons, wherever possible, will mirror what is being taught in school each day. This means that if your child is accessing a key worker place in school for part of the week only, they will be able to continue with their learning at home with no interruption.

All lessons are planned to follow the normal curriculum that your child would have been taught, had lockdown not occurred.

Remote teaching and study time each day

How long can I expect work set by the school to take my child each day?

We expect that remote education (including remote teaching and independent work) will take pupils broadly the following number of hours each day:

Each year group will have a suggested weekly timetable to follow that can be accessed via the MyLearning platform.

As we know, from discussion with our parents that many have to work from home, whilst trying to facilitate and support their child with their remote learning. We therefore, believe that parents should have the flexibility to be able to schedule their own timetable for their child(ren) that best meets the needs of the family.

EYFS	1-2 hours a day – Phonics, Writing, Story and Number. Other additional optional lessons may also be included such as 'Movement'.
Key Stage 1	3 hours a day - 4 lessons but may also include extra optional lessons such as TT Rockstars (times tables practice), daily exercise and listening to a story. A Daily Timetable and Start of the Day video is also provided.
Key Stage 2	4 hours a day - 4 lessons but may also include extra optional lessons such as TT Rockstars (times tables practice), daily exercise and listening to a story. A Daily Timetable and Start of the Day video is also provided.

Accessing remote education

How will my child access any online remote education you are providing?

After day two, all remote learning will be accessible for your child on the Wolds Learning Partnership, MyLearning platform.

Lessons will be uploaded the day before they are due to be accessed by children

If my child does not have digital or online access at home, how will you support them to access remote education?

We recognise that some pupils may not have suitable online access at home. We take the following approaches to support those pupils to access remote education:

We encourage parents to explore the use of all devices in the family home such as laptops, ipads and mobile phones but also Smart TVs, Nintendo Switches, PS4s, and Xboxes. Instructions on how to access the MyLearning from these devices is on the landing page of the school website.

If parents are unable to obtain a device for their child to work on, they may be eligible to loan one from school. Parents should contact the school admin team on office@stamfordbridgeschool.co.uk to place an enquiry.

Some pupils may, for particular reasons, require paper copies of the home learning. This can be requested by contacting your child's class teacher using the following relevant class email address:

eyfs@stamfordbridgeschool.co.uk

class1@stamfordbridgeschool.co.uk

class12@stamfordbridgeschool.co.uk

class3@stamfordbridgeschool.co.uk

class34@stamfordbridgeschool.co.uk

class4@stamfordbridgeschool.co.uk

class5@stamfordbridgeschool.co.uk

class56@stamfordbridgeschool.co.uk

class6@stamfordbridgeschool.co.uk

How will my child be taught remotely?

We use a combination of the following approaches to teach pupils remotely:

In this section, please list the range of approaches you use to teach pupils remotely.

As part of this list, schools may wish to indicate the extent to which they are used, and subjects and key stages these approaches are used in, if there are differences.

Some examples of remote teaching approaches:

- recorded lessons created by our school staff via the MyLearning platform
- printed paper packs produced by teachers (if requested by parents)
- bespoke work packs (as appropriate) for SEND pupils
- reading books pupils have at home
- commercially available websites supporting the teaching of specific subjects or areas, including video clips or sequences (as appropriate)

Engagement and feedback

What are your expectations for my child's engagement and the support that we as parents and carers should provide at home?

We recognise that many parents will be under pressure trying to facilitate and support their child's learning whilst trying to manage their own work. We therefore will always plan recorded lessons with this in mind and try to make them as self-explanatory as possible so that most children can work independently.

We would ask that parents aim to establish a daily routine of home learning with their children. By doing this, it will help your child to realise the expectation that they continue with their lessons every day. It is important that parents use a routine that supports not only their child(ren) but their own work routine.

Wherever possible, if parents are able to do the following, it will help to motivate your child(ren):

- Treat each weekday as a usual school day; get up and dressed at the normal time and have breakfast then start their online lessons
- If your child can work independently, check in with them regularly and see if they have any questions, praise what they have done so far, give them any feedback to improve their work
- Facilitate your child contacting their teachers to ask about and share their work. To do this use the class email address provided above.

How will you check whether my child is engaging with their work and how will I be informed if there are concerns?

School staff will be contacting parents to discuss how their child is progressing with their work and to check on their general welfare.

If your child has additional needs, a member of staff will contact you in the first few days of lockdown to arrange the most convenient way for regular contact to be made with you and your child(ren).

Where staff have concerns that they have not received work or contact from a pupil, they will continue to try to telephone until contact is made. Discussion with parents can then establish the best ways for supporting the pupil, moving forwards.

Additional support for pupils with particular needs

How will you work with me to help my child who needs additional support from adults at home to access remote education?

We recognise that some pupils, for example some pupils with special educational needs and disabilities (SEND), may not be able to access remote education without support from adults at home. We acknowledge the difficulties this may place on families, and we will work with parents and carers to support those pupils in the following ways:

Pupils with additional needs may be assigned a member of staff who will work together with the school's SENDCo and their class teacher, to create bespoke packs of learning materials that will help your child continue with the key skills that they would have been working on in school.

Where applicable, your child may also be signposted to access the learning for their year group on the MyLearning platform.

Your child's assigned member of staff will be in contact with you regularly (by mutual agreement), to discuss your child's needs and offer any additional support and advice.

As a school, we would like to thank all our parents for their support in during lockdown in helping their children learn from home. We know how hard this can be and we will do all that we can to support you.

If you have any further queries about remote learning, please do not hesitate to contact school.
